Career Objective

Recently, I have been working with a startup company. However, I am looking for a IT job to secure my position. I am very hard-working. I can able to handle multiple tasks on a daily basis. In addition, I use creative approach to solve a problem. My eventual career goal is to assume responsibility for the analysis and implementation and actively contribute to the overall success of any IT job I work for. Moreover I have a YouTube channel where I upload web related tutorial. You can check out my channel. The link is given in the Co-curricular Activities section.
